- 2 small wooden pegs
- 1 heart-shaped button
- Scraps of Vliesofix
- Backing : 0.90 m fabric
- Batting : 0.90 m volume batting

### Tip:

Use different fabric scraps for this quilt.

The following colours are necessary to get a varied overall picture:

4 x beige, 3 x brown, 4 x red, 4 x green, and 1 x bright yellow

Those not having a large collection of fabrics need the above mentioned quantities of fabric.

### Product information:

Paper Solvy: water soluble paper which may be removed by immersing it into water for 10 seconds.

Totally Stable: an embroidery backing with special coating for ironing. The adhesive has only weak adhesive power so that it can be totally removed.

Ultra Solvy: an extra strong, water-soluble foil which is washed out with warm water after processing.

Cotton 30 is a machine embroidery and quilting thread made of 100% cotton

**Size:** 61 x 84 cm

**Seam allowance:** 0.75 cm

The cutting dimensions already include the seam allowance of 0.75.

### **Information concerning instructions from the Internet:**

Most of the patterns are illustrated in original size and include a 10 cm scale.

It is only the pattern for the garden motif (house with trees) which must be enlarged from A4 to A3.

Depending on the individual Acrobat Reader programme settings, the dimensions may deviate from the default values after downloading. For adapting the dimensions either change the setting of your own programme or adjust the model to the measuring scale using a copier.

### **Monthly instructions:**

The first 9 monthly instructions contain the corresponding method and the respective pattern without seam allowance.

The 10th monthly instruction includes information on borders, finishing, quilting, and edging.
